**CALIBRE CONTINUES TO DELIVER STRONG FREE CASH FLOW  
CASH POSITION INCREASED 26% TO US\$97 MILLION  
FROM A RECORD QUARTER, PRODUCING 73,485 OUNCES OF GOLD**

**Vancouver, B.C. – October 10, 2023: Calibre Mining Corp.** (TSX: CXB; OTCQX: CXBMF) (“Calibre” or the “Company”) is pleased to announce operating results for the three and nine months ended September 30, 2023 (*all amounts are expressed in U.S. dollars*).

**Q3 and Year to Date (“YTD”) 2023 Highlights**

- **Q3 cash increased to \$97 million, a 26% increase over Q2 2023 and 72% since the start of 2023**
- **4<sup>th</sup> Consecutive record consolidated quarterly gold production, 73,485 ounces**
  - 50% increase in gold production compared to Q3 2022 (49,081 ounces)
  - Nicaragua gold production of 63,756 ounces and Nevada gold production of 9,729 ounces
- **Record consolidated YTD gold production of 208,011 ounces**
  - 30% increase in gold production compared to YTD 2022 (160,704 ounces)
  - Remain well on track to deliver full year guidance of 250,000 – 275,000 ounces
- Exploration success at Libertad yielded an [Initial Mineral Resource Estimate at the Volcan Gold Deposit](#) and identified additional gold trends proximal to the mill, providing further opportunity to leverage the available surplus processing capacity;
- Continued to expand zones of high-grade gold mineralization within the Limon Mine Complex, at [Atravesada](#) and [along the VTEM Corridor](#), demonstrating the expansion and discovery potential across the property; and
- Potential to increase resources, grade and confidence around the Pan mine was reaffirmed with [high-grade, near surface drill results immediately south and north of the operating mine.](#)

**Darren Hall, President & Chief Executive Officer of Calibre, stated:** “During the quarter Calibre increased cash, after exploration and growth investments, to \$97 million from gold production of 73,485 ounces, the company’s fourth consecutive record quarter. The Company is in an excellent position to deliver the high end of full year production guidance of 250,000 - 275,000 ounces while continuing to generate strong free cash flow.

October 15 marks the fourth anniversary of our Nicaragua operating complex acquisition which transformed the Company to a growth focused gold producer. Four years on we have built a strong foundation, consistently delivering on our commitments while self funding investments and growth, including;

- Joined the World Gold Council, committing to their Responsible Gold Mining Principles, and integrated sustainability into all aspects and phases of our operations;
- Permitted and developed five new mines, each self funded through cash flow;
- Increased annual gold production 93% to 250,000 – 275,000 ounces (2020: 136,000 ounces);
- Grown Reserves 370%, net of production depletion; and
- Increased cash from \$4 million to \$97 million.

I am excited about the future. Calibre presents a compelling investment opportunity with its consistent delivery of strong free cash flow, ongoing reinvestment in exploration and growth, and commitment to conducting operations in a responsible, sustainable, and transparent manner.”

#### ***Cautionary Note Regarding Forward Looking Information***

*This news release includes certain "forward-looking information" and "forward-looking statements" (collectively "forward-looking statements") within the meaning of applicable Canadian securities legislation. All statements in this news release that address events or developments that we expect to occur in the future are forward-looking statements. Forward-looking statements are statements that are not historical facts and are identified by words such as "expect", "plan", "anticipate", "project", "target", "potential", "schedule", "forecast", "budget", "estimate", "intend" or "believe" and similar expressions or their negative connotations, or that events or conditions "will", "would", "may", "could", "should" or "might" occur. Forward-looking statements in this news release include but are not limited to: the Company's expectations toward higher grades mined and processed going forward; statements relating to the Company's 2023 priority resource expansion opportunities; the Company's metal price and cut-off grade assumptions. Forward-looking statements necessarily involve assumptions, risks and uncertainties, certain of which are beyond Calibre's control. For a listing of risk factors applicable to the Company, please refer to Calibre's annual information form ("AIF") for the year ended December 31, 2022, and its management discussion and analysis ("MD&A") for the year ended December 31, 2022, all available on the Company's SEDAR+ profile at [www.sedarplus.com](http://www.sedarplus.com). This list is not exhaustive of the factors that may affect Calibre's forward-looking statements such as potential sanctions implemented as a result of the United States Executive Order 13851 dated October 24, 2022.*

*Calibre's forward-looking statements are based on the applicable assumptions and factors management considers reasonable as of the date hereof, based on the information available to management at such time. Such assumptions include but are not limited to: the Company being able to mine and process higher grades and keep production costs relatively flat going forward; there not being an increase in production costs as a result of any supply chain issues or ongoing COVID-19 restrictions; there being no adverse drop in metal price or cut-off grade at the Company's Nevada properties. Calibre does not assume any obligation to update forward-looking statements if circumstances or management's beliefs, expectations or opinions should change other than as required by applicable securities laws. There can be no assurance that forward-looking statements will prove to be accurate, and actual results, performance or achievements could differ materially from those expressed in, or implied by, these forward-looking statements. Accordingly, undue reliance should not be placed on forward-looking statements.*
